Purpose:

The **purpose** of the Software Test Requirements (STR) document for testing the Israeli "WOBI" website -comparison insurance company is to provide a structured framework for ensuring that the website meets all functional, performance, and regulatory requirements.

Ensure the test function perform as required and covering user interface, functionality, security, performance, graphic design, information pages and cross-browser/device compatibility.

Application Overview:

"**WOBI**" is an Israeli website that provides a platform for comparing insurance prices across various categories, such as car, home, life, and health insurance.

The website allows users to compare real-time prices from different insurance companies and even purchase insurance policies directly through the platform.

Availability on Web and Mobile: WOBI is accessible both via its website (web) and a mobile app, allowing users to access its services anytime, anywhere—whether on a computer or a mobile device.

Testing Scope: In Scope-

Functional Testing for the following modules is in Scope of Testing:

- מסך פתיחה ✓
- ביטוח רכב ✓
- ביטוח נסיעות לחו"ל ✓
- ביטוח דירה ✓
- ביטוח משכנתא ✓
- ביטוח בריאות וחיים ✓
- קריירה ב-WOBI ✓
- שירות לקוחות ✓

Metrics:

Test cases status

The pie chart displaying website test results: Show the passes and failures:

The chart visually compares the percentage of successful tests against those that failed and not run, providing a clear overview of the site's performance.

Passed	Failed	Not Run	Total
127	52	13	192

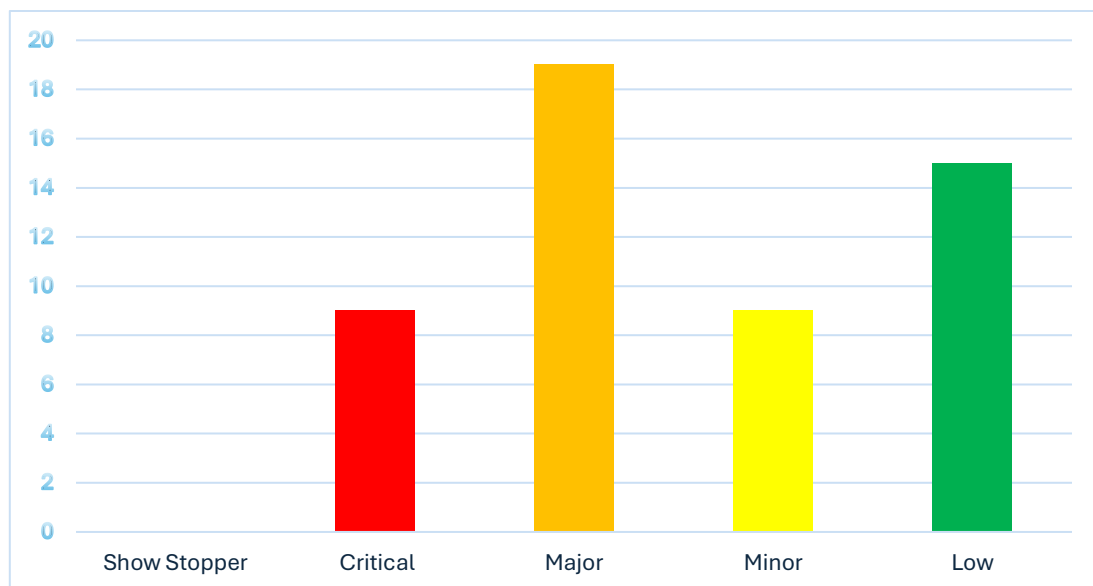

Severity Bugs Status & Test case:

This table and graph show the data of the severity of the bugs and the different types of test case that the bugs were found.

-On the left: The Severity status-

-Top of the table: Test Case-

	Functional	GUI /UX	Compatibility	Interfaces	Accessibility	Performance	Total
S1 - Show Stopper	0	0	0	0	0	0	0
S2 - Critical	8	0	0	1	0	0	9
S3-Major	7	11	0	0	0	1	19
S4-Minor	3	6	0	0	0	0	9
S5-Low	1	14	0	0	0	0	15
Total	19	31	0	1	0	1	52

Recommendations:

- *In each data entry panel, make sure that there is an alert for wrong entering data before pressing the next step.
- *Fit the lead of the toolbar into the right place on wobi site with one click.
- *Update the panels entry - include crucial fields such as: resume, proper email according to proper format write, etc.
- * Customize the visuals to the user terms of images, resolution, browser speed, and alignment, and text.

Exit Criteria

- *The number of the critical Severity bugs should be **no more than 11**- Yes.
- * Most bugs will not include functional testing. -Yes.
- * The total amount of bugs in the site should not be over 93- Yes.

Conclusion-Go

Conclusion - Webby site tests include findings that are severity - critical and major

The total number of bugs were found are - 52

The types of tests with the most bugs detected are functional and GUI/UX.

Following the findings of the tests and despite the number of total bugs - the functionality of the site works well and maintains the main functions of the wobi site - comparing insurance prices.

As a result, we recommend releasing the site version

[MDP-50] -WOBI" It is possible to submit a apply application job קריירה ב On section " with an incorrect email format

[MDP-51] WOBI" is 1.2 minutes קריירה עם Page load time on "

[MDP-52] The - WOBI" page. קריירה ב. " button does not open on the " הצגת המשרות "

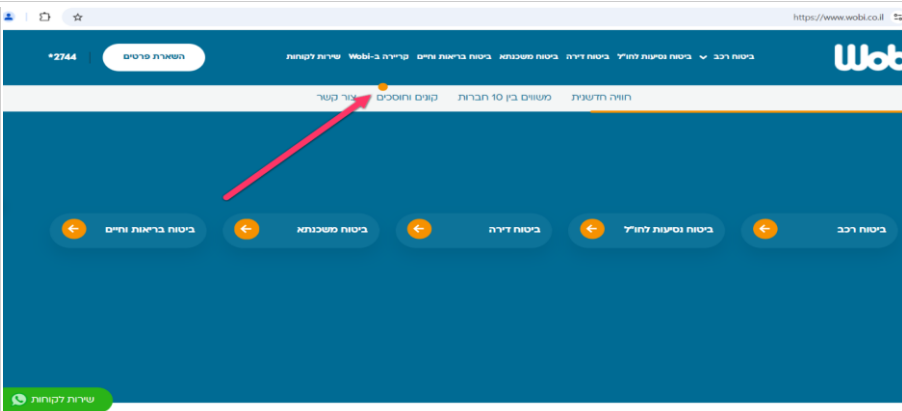

Bug Report

[MDP-2] When scrolling the main page, the yellow dot of the main title moves

Status:	To Do
Project:	- wobi-

Type:	Bug	Priority:	Low
Reporter:	MIRI DAVID	Assignee:	Unassigned
Resolution:	Unresolved		
Labels:	None		
Environment:	Browser: Google Chrome, Bulit 130.0.671.0 OS: Windows 11 Home, Bulit 22631.4037		

Attachments:

The screenshot shows the Wobi website interface. At the top, there is a navigation bar with the Wobi logo on the right and a search bar on the left. Below the navigation bar, there is a main content area with a blue background. A yellow dot is visible on the main title bar, and a red arrow points to it, indicating the bug. The dot moves when scrolling the page.

Severity: Low

Description

Steps to reproduce:

1. Open <https://www.wobi.co.il/>
2. Scroll down the page

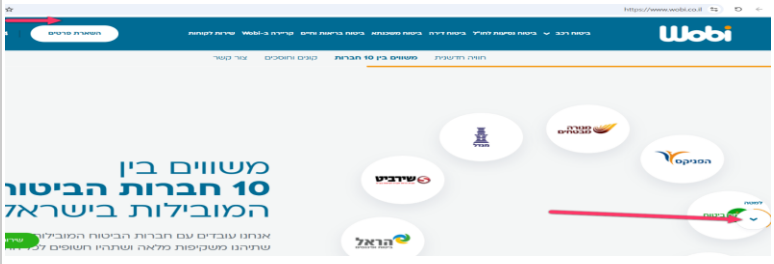

Actual results: The yellow dot moves when scrolling

Expected Result: The yellow dot should not move and stay in place.

[MDP-3] It is not possible to go up using the button on the right side of the main page Created: 17/Sep/24 Updated: 17/Sep/24

Status:	To Do
Project:	- wobi-

Type:	Bug	Priority:	Low
Reporter:	MIRI DAVID	Assignee:	Unassigned
Resolution:	Unresolved		
Environment:	Browser: Google Chrome, Bulit 130.0.6710.0 OS: Windows 11 Home, Bulit 22631.4037		

Attachments:	
Severity:	Low

Description

Steps to reproduce:

1. Open <https://www.wobi.co.il/>
2. Click the button on the right one click

Actual results: It is not possible to go up by pressing the scroll button

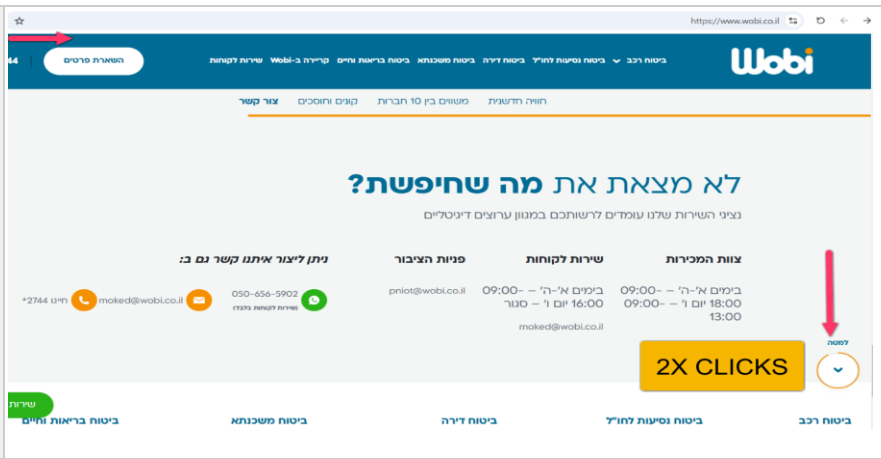

Expected Result: It will be expected that we can go up with the help of the scroll button

[MDP-4] To get to the bottom of the page you need to press the scroll button twice Created: 17/Sep/24 Updated: 17/Sep/24

Status:	To Do
Project:	- wobi-

Type:	Bug	Priority:	Medium
Reporter:	MIRI DAVID	Assignee:	Unassigned
Resolution:	Unresolved
